Risk and reward profile

The summary risk indicator assumes you keep the Product until maturity end of the recommended holding period (5 years). The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because the fund is not able to pay you. Risk Category 4 reflects moderate gains and/or losses for the portfolio. This is due to investments in equities on the European market. The capital is not guaranteed. The risk indicators can also be viewed in the KIDs below.
