### What is this product?

#### Type

Investment Fund (F.C.P.), Luxembourg

#### Term

This sub-fund has no maturity date. However, the management company may decide to close the sub-fund under certain circumstances.

#### Objectives

The sub-fund aims to increase the value of its units by investing in equities related to the areas of renewable energy, water management and water distribution, clean technology and related industries. The sub-fund may also invest in Exchange Traded Funds (ETFs). The sub-fund will not invest more than 10% of its net assets in units/shares of other UCITS or UCIs, including ETFs. The sub-fund can use derivatives for hedging purposes. The sub-fund may hold, on an ancillary basis, liquid assets.

The sub-fund qualifies as an Article 9 financial product under SFDR. The sub-fund's investment strategy is designed to create long-term positive return in investments focusing on equities related to the areas of Renewable Energy, Clean Technologies, Water Management and Water Distribution. The Investment Manager integrates this goal into the sub-fund's investment strategy to better manage risk and to generate sustainable long-term returns. The Investment Manager's ESG policy is embedded throughout the entire investment process. The sub-fund does not invest in companies generating more than 5% of the revenues from production of tobacco and alcohol, weapons manufacturing, weapons sale, gambling, pornography, mining etc., also, the sub-fund does not invest in companies operating in any capacity in the production or sale of the controversial weapons such as chemical weapons, biological weapons, cluster weapons and landmines. For further information on the Investment Manager's ESG policy please consult <https://www.cbfounder.se/en/2015-05-28-12-26-29/ethical-guidelines.html>.

**Benchmark:** The portfolio is actively managed on a discretionary basis

without reference to a benchmark. However, the sub-fund is managed in reference to the MSCI World Net Index for the purpose of marketing only.

#### Intended retail investor

This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

<b>Favourable</b>	<b>What you might get back after costs</b>	13,850 EUR	18,200 EUR
	Average return each year	38.5 %	12.7 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets

risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk.** You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Emerging market risk, Liquidity risk, Currency risk, Operational risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

could develop very differently in the future.

This type of scenario occurred for an investment or benchmark index between 2012 and 2022, with index used 2012-2016, except the stress scenario which shows what you might get back in extreme market circumstances.

## What happens if FundRock Management Company S.A. is unable to pay out?

The Management Company is responsible for administration and management of the sub-fund, and does not typically hold assets of the sub-fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the sub-fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	150 EUR	1,080 EUR
Annual cost impact (*)	1.5 %	1.5 % each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.3% before costs and 8.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
